## Lutheran University of Applied Sciences

### Disciplines

- Social Sciences
- Health and Care
- Religious Education, Christian social work

President Prof. Dr. Thomas Popp

### Profile

The Evangelische Hochschule Nürnberg (EVHN) – Lutheran University of Applied Sciences is a nationally recognised centre of university education for social education, care-oriented and religious education careers in the social ministries, church and the wider society. Education is based on the Christian concept of man. Therefore, aside from the scientific foundation of the lessons, research, further and continuing education, there are additional topics on offer – all types of spiritual, personality-building and general education. In addition to their scientific qualification and training, students are encouraged to reflect on their own person and ethical questions in one's profession and in society.

The manageable size of approximately 1,500 students and small study groups allows for a personal cooperation between lecturers and students. As a state-approved university of the Evangelical Lutheran Church in Bavaria, the EVHN cooperates with reputable practice institutions and other universities at home and abroad.
