Degree Programs	100
Partner Universities	265
Date of Foundation	1971

Munich University of Applied Sciences

Faculties

- Architecture
- Civil Engineering
- Mechanical, Automotive and Aeronautical Engineering
- Electrical Engineering and Information Technology
- Technical Systems, Processes and Communication
- Applied Sciences and Mechatronics
- Computer Science and Mathematics
- MUC.DAI (Munich Center für Digital Sciences and AI)
- Geoinformatics
- Engineering and Management
- Business Administration
- Applied Social Sciences
- Design
- General and Interdisciplinary Studies
- Tourism

President Prof. Dr. Martin Leitner

Profile

HM is one of the most diverse universities of applied sciences in Germany. Our strengths include our broad range of study programmes, interdisciplinary research, entrepreneurial attitude, strong regional networks and cosmopolitan atmosphere.

Our 14 departments and our Munich Center for Digital Sciences and AI teach over 18,500 students. We regularly perform outstandingly in the main national rankings and the European Commission's U-Multirank initiative.

How do we achieve this? With some 100 bachelor's and master's degree courses in engineering, business, social sciences and design. With a strong orientation on research and practice. With a full programme of bachelor's and master's degrees and doctoral qualifications. With an individual approach, interdisciplinary diversity and special funding opportunities. With fulltime and practice-oriented dual and cooperative programmes and part-time study options. And with a range of active contacts in industry, business and civic-society institutions, who benefit from the practice-oriented graduates and applied research produced by our institution.
