### Profile

#### Welcome to Rosenheim

#### An attractive location with an international reputation

Studying at Rosenheim University of Applied Sciences means studying in beautiful surroundings in one of the most attractive regions in Germany – in particular in terms of quality of life, recreational activities and economic strength. The university has deep roots in the region as well as a network spanning the entire globe. Its welcoming atmosphere, personal advising services, close contact between students and lecturers and the modern campus infrastructure create ideal conditions for academic success. With the highest standards of educational quality, Rosenheim University of Applied Sciences trains qualified graduates in the disciplines of business, engineering, design and healthcare studies.

#### Academics – based on experience

At Rosenheim University of Applied Sciences, immense value is placed on the practical relevance of our academic programmes. We are the top university partner for local companies and a respected collaborator on applied research, both regionally and internationally. Our close contacts to industry and business are the foundation for our practical courses of study, in which students acquire essential skills for their future careers via real project work. In our interactive and interdisciplinary lectures and practical field projects, emphasis is not only placed on technical and methodological expertise, but also on developing social and communicative skills, which will play an important role in your future career. Many of our students' theses are produced in cooperation with companies. Furthermore, field excursions and internships are an integral part of all bachelor programmes.

President Prof. Dr. h.c. Heinrich Köster
