- Social Work

President Prof. Dr. Michaela Wirtz

### Profile

Landshut University of Applied Sciences offers over 50 Bachelor's and Master's degree programmes in its six faculties of Business Administration, Electrical and Industrial Engineering, Computer Science, Interdisciplinary Studies, Mechanical and Civil Engineering and Social Work.

Our professors impart more than just subject-specific knowledge. They also promote social responsibility and commitment, and instruct students in rhetoric and communication. This is because these interdisciplinary skills make it easier for our graduates to enter the world of work.

Landshut University of Applied Sciences maintains partnerships with universities and companies worldwide. Our students are able to gain experience with them on internships or study courses abroad. Our extensive range of language courses provides a strong foundation for this.

Light but strong materials, climate-friendly energy systems, optimum production logistics and the challenges of social change: at the Landshut University of Applied Sciences we are developing innovative and modern solutions. We cooperate closely with industry in the process.
