President Prof. Dr. Eva-Maria Beck-Meuth

Profile

Aschaffenburg University of Applied Sciences is one of Germany's leading young universities. We offer forward-looking programmes geared towards putting the latest research into practice so as to provide our students with outstanding prospects for their future careers.

Aschaffenburg UAS became a teaching institution in 1995, and it has grown rapidly ever since. More than 4,000 students benefit from the attractive programmes of study in economics, technology and health. Due to its achievements in teaching and research as well as the international outlook of its programmes of study, Aschaffenburg UAS has been rated among Germany's leading institutions in various rankings.

Aschaffenburg UAS offers its students all the advantages of a small yet modern university: a personal atmosphere, small study groups, individual mentoring by highly committed teaching staff as well as modern equipment in lecture halls and labs. The university campus with its mix of historic and high-tech buildings furnished with state-of-the-art facilities is a blend of the traditional and the modern.
